Subject: FYI....for ELelement narratives

The Dimock narratives are going to be a little different than our norm...which seems to be the norm....ha!
Anyway, there are going to be 3 separate narratives labeled as below. I am going to copy the wording from the previous reports and then everyone can just edit as necessary. Every test has been listed, even if all it says is None. Remember to go to your part...1, 2, or 3 and edit. No one should have to ADD anything!

1st report = WO number.....for metals and glycols
2nd report = Report 2 of 3.....for SVOCs, VOCs, and Alcohols
3rd report = Report 3 of 3.....for Inorganics...Mercury, Anions, O&G, TDS, TSS, TN, TP, and N2N3

If this doesn't make sense, just let me know.
